Re: Mickey Keats

I have known Mickey Keats for well over 20 years. As a matter of fact, I have known both Mickey's parents almost all of my life -- his mother grew up on the same street in Carteret that I did and we played together as kids. Therefore, I feel that I am not only qualified by virtue of knowing Mickey, but also by knowing the caliber of his parents.

Let me assure you that I do not give letters of recommendation freely. I feel that giving a letter of recommendation somewhat puts me on the firing line if that person did wrong after I have given my recommendation attesting to his character.

However, this is one instance where I feel a letter of recommendation is more than warranted, knowing of this young man's character, ability and dedication to whatever he does. Therefore, I highly recommend Mickey for any position he seeks.

Respectfully yours,

*Peter J. Sica*  
Mayor Peter J. Sica
